

About Me

Hey there! I am a passionate front-end developer and UX/UI designer. I am a problem solver, and pay extreme attention to detail in my designs. I work well in teams and independently. I pride myself in my ability to see from a user's perspective, and use that skill to create the most intuitive designs possible. Let's work together!

Software

- VS Code
- IntelliJ IDEA
- Figma
- GitHub

Justin Gorelik

Web Developer

Experience

UX/UI Designer **TitanFlow (2020 - Present)**

- Lead designer of TitanFlow's website (titanflow.io).
- Assisted in the design of intuitive, simple, and engaging in-app components/features.
- Responsible for creating branding related graphics and animations when needed.

Social Media Manager **TitanFlow (2021 - Present)**

- Created and curated graphics/posts for TitanFlow's Twitter page (@TitanFlowIO).
- Responsible for analyzing engagement data and identifying trends in interactions with posts.

Web Design Intern **GoreMedia Solutions (2019 - 2020)**

- Assisted in the designing of websites for the clients of GoreMedia Solutions.
- Created the layout for an internal digital catalog of inventory.

Freelance Video Editor **(2018 - 2021)**

- Created logo animations.
- Edited YouTube and montage videos.

Snapchat Lens Developer **Legre Eyewear (2018 - 2020)**

- Created interactive Snapchat lenses that allowed users to try on multiple styles of the brand's glasses.

Projects

NFT+

Created a prototype for a NFT related social media platform that would allow users to share their NFTs to a feed, and buy, sell, mint, and trade NFTs. The app also provided statistics on trending NFT collections and cryptocurrencies.

titanflow.io

TitanFlow is a mobile app that allows users to track "smart money transactions" in the stock and equity options market. In collaboration with one of TitanFlow's co-founders, I designed the company's website using Figma.

Snapchat Lens Marketing Campaign

Worked with Legre Eyewear to create a modern and captivating way of trying on glasses, which led to a significant increase in the sale of their eyeglasses.
